# Play With Docker Setup Instructions

Steps:

- Navigate to the following link to get started: https://labs.play-with-docker.com
- This link should take you to the login screen, and clicking login will provide you with a default login of 'docker'

- You may be prompted to log in with your Docker or Google account, or to create an account (signing up for Docker is free).

- Once you've authenticated, you'll see a session screen where you can start up a Linux session

- To toggle in and out of full-screen mode press [Alt] [Enter]

- That's all you'll need to get started with the workshop!
